DLA-DSTRO-2(017-004823	Zachary J. Jacobson	Dr.	I am Cold War historian. was wondering if you might know where could look for, or who might ask about, locating the records for the orders to distribute literature to US military personnel by high officials (n this case Pres. John F. Kennedy, "The Guns of August" by Barbara Tuchman, 1962/63) During the Cuban Missile Crisis, Kennedy was enamored with Tuchman's history of the first month of World War as clue for how to confront the Soviets in Cuba. In most any thorough biography of JKF, historians recall how the president insisted time and again that his aides and the officers around him read the book. He went further: he wanted to "send copy of that book to every Navy officer on every ship right now."He told the Secretary of the Army, Cyrus Vance, to ship Tuchman's best-seller to "every U.S. military base in the world."These stories are repeated time and again, but there is no evidence yet, one way or other, if they were ever carried out, if soldiers and marines, pilots and saliors, as they readied for Cuba (nd Vietna) read of the misery and heroism of World War amidst their own travalis. Could you help point me in the direction of how might figure this out?	No records

Rushing Rush	DLA-ENERGY-2017-003869	Benjamin D. Neimark	Lancaster University	emissions of fuels; we are building life-cycle model to better understand how and where fuel is acquired, distributed, and consumed. The purpose of this data is to construct an environmental footprint of total DoD carbon emissions from fuel. To this end, we are looking for fuel purchasing and distribution data for the DoD. We are looking for three distinct types of data, listed in order of priority. Fuel purchasing and distribution data split up by both service/branch and product type back to 1999 or as far back as possible. Beyond fuels (ulk, Diesel, Gasoline, Jet, Missile Fuel, Ship Propulsion, etc), it would be helpful if this could also include Direct Delivery and Installations. The more specific you can be (g. J.P) the better. Any data you can provide on the regions where fuels of each type are procured by year. The more exact the data where fuels come from the better, but we are hoping for something at least at the level of Customer Organized Groups (e understand this is consumption category, but we have not found similar term for procuremen). It would be helpful if you include fuels procured outside the US, and break those down by region as far as possible as well. We are interested in this because refineries in different regions have different efficiencies, so if there is better way at getting at this concept we would accept other data that could achieve this goal. If there is refinery level data available, this would be ever helpful. If there is data that could help us understand how fuels are transported from their point of delivery to the installation at which they are consumed this would be great. Maybe this service-specific, but if you could help us understand the transportation aspect, it would give us better picture of the embodied greenhouse gas emissions	Full grant

The service member had orders while he was stationed at NAS Meridian Mississippi under 3019 [The service member was also Navy Individual Mobilization Augmentation Status his entire time in the US Navy and he was never Permanent Change of Station from 1969-73] that are not from the US Navy or 180K that are from the Pentagon over 23 months of his service and he had year 1 month 23 days of foreign service/SEA Duty that are classified. There is strong chance that the service member was in secret missions via Pentagon authority above the US Navy and FMF USMC. Notwithstanding am asking DLA to check the record of this service member on both DLA civilian and DLA military manpower databases.

DLA-HQ-2017-002928	David S. Leonard	2Is Incorporated	I need list of all known WSDCs (weapon system designator code) and for each WSDC, the name of the weapon system. For each WSDC would also like list of all known NSNs (National Stock Number) which are end-tiem components of the weapon system, as well as the WSECs. If this involves data pull from specific table, and that table also includes the WSGC and WSIC codes, would like those values as well. similar request was made from 2ls Incorporated in 2015, under PGUA Request ID 16-HFO-lOOM217, and the same data format would be ideal. For few years at my company, we were receiving material data via Fusion Center. One of our contracts with DLA came to close, and we have been informed that this data will no longer be available to us via Fusion Center. In Fusion Center, believe the table for the NSN/WSDC relationship was either called CFM_NSN_WSDC, or ZDOR_WSP. As we move forward and continue to do our own research and create products useful for our customers, we would like access to some of this data. About us: 2ls (ronounced 7two eyes) is parts supplier and software company (AGE 12KD). In the past, we have provided software services for DLA, like our OASIS application, which helped supply planners at DLA access data analysis on populations of parts http://2is-inc.com/oasis.html. appreciate anything you can do to help me obtain this information. DLA-LANDM-2017-000576	Fred Fielding	Chase Supply Inc.	We are requesting any correspondence between DLA and both Strum and the SBA with respect to the justification of the contract award made to Strum. DLA is required to establish the ability of any 8A company to be able to meet the requirements set forth in the manufacturing of given product. We would like to know, under what basis, Strum was awarded this contract. Specifically, was Strum required to do 51% of the work or if less than 51%, under what basis was	Partial grant/partial denial
			that determination made that Strum was capable of manufacturing or supplying this duct? How was Strum validated for this effort? If no visit was made to their facility, under what basis was the determination made that they could produce this duct? Strum is required to pass FAT for this product. We would like to request copies of the FAT test reports Strum submitted for this

Part	DLA-TS-2017-003420	Robert A. Farber	Sea Box, Inc.	Sea Box, Inc. requests copy of all Modifications issued under purchase orders SPE8ED-16-M-0739 and SPE8ED-16-M-0740 (xcluding Modifications numbered P00001 which were issued under each of them and which Sea Box already possesse). Sea Box believes that the entire Modification if any have been issued subsequent to Modifications P00001 are clearly releasable without redactions since such modifications would have fully appeared on the Defense Logistics Agency Internet Bid Board System for viewing by the general public without redactions and without permission from the affected contractor. Due simply to administrative document display time parameters, contracts and orders are removed from the DIBBS four months after the date of the contract or modification thereto. In this case, Modifications P00001 to both orders were issued at the end of August, 2016, and the orders and modifications were removed four months later (t the end of December, 2016. In the absence of that administrative rule, subsequent modifications would also appear without redactions. Therefore, contractor could not expect that its contract or modifications would be withheld from viewing.	No records

DLA-TS-2017-004566	Robert A. Farber	Sea Box, Inc.	The Defense Logistics Agency Bid Board System shows that both of the attached orders P-0987 and P-0988 have been modified. Please look at lines 20 and 21 of the attached DIBBS AWARD SEARCH RESULTS K 071217 which indicates that Mods have been issued against both orders. However, the DIBBS doesn't have the Mods attached and accessible for P-0987 and P-0988. Both Mods are obviously public information and should obviously have appeared for download from the DIBBS without the need for this Freedom of Information Act request. Accordingly, please process this FOIA request in your EXPEDITED queue, if that path exists.	Request withdrawn
